EDITORIAL
El Puerto Ibiza

Now on its fourth edition, El Puerto Ibiza aims to offer a wider and chameleon-like look to the island. In such a rather overflowing editorial scene, especially considering entertainment and lifestyle, an authentic and genuine proposal was needed. Our goal is to promote brands and steer them toward a market that is becoming more and more international. Our magazine aims to offer many opportunities thanks to its innovative approach and to its wider contact network, which is renewed every year. Our main goal is to become the ideal business partner for many brands and companies during the summer season. We'll be an essential partner for all the companies that are interested in investing in the island and that want to create integrated communication plans, activating diversified strategies using the channels of El Puerto Ibiza. The project's aim is becoming a touchstone for the entire Ibizan culture. A world that it's not only reflected when published in a magazine, but that turns events, such as Milano Ibiza One Way (more details at page 53) and Irriverent Sofa (more details at page 54), in new and captivating live experiences.

There was a complete restyling for this issue. Our graphics was updated. Our latest issue has been improved with new contents on lifestyle, fashion, accommodation, free time, night life, wellness, beauty, sport, while at the same time maintaining a substantial focus on photography, which is one of the most significant fields that overtime has made El Puerto Ibiza locally well known. Ibiza it's a fascinating island and the magazine has always been able to summarize the island's two souls. The Ibiza Imaginary, rich of glamour splendour, connected to the world's lifestyle. The second one, The Real Ibiza, is linked to the truthfulness of people that come often here, people representing the real essence of this place. El Puerto Ibiza, with its originality and eccentricity, can identify the heart of these two souls and of their authenticity. El Puerto Ibiza finds the main events in the island and advices on alternative cultural and leisure activities. That's why the audience of our magazine is so wide, we have both curious readers and travelers that are always waiting for the newest trends. From our next issue, which will be available this season, our magazine is pleased to announce a

partnership with Urban, Milan's metropolitan lifestyle magazine. El Puerto Ibiza and Urban will coexist in an editorial project combining two cultural worlds: Urban will export the most glamorous and fashionable culture - far away from the mass tourism - to Ibiza, through El Puerto Ibiza. In this issue, which draws a path to our new format, we have decided to talk about the island's future and our perspectives. We firmly believe that Ibiza is well structured and that we have another incredible upcoming summer ahead of us. This will only happen if we can bring innovation and care to the island we all love. We will open the season with an attentive state of mind, full of new experiences and surprises, also thanks to the efforts of El Puerto Ibiza. I'd like to take this opportunity and thank all the members of the team that have worked with me in this project, and that have helped me to do my job in the best possible way. Enjoy your summer!

Carlo Boldrini, owner.

QUANTUM

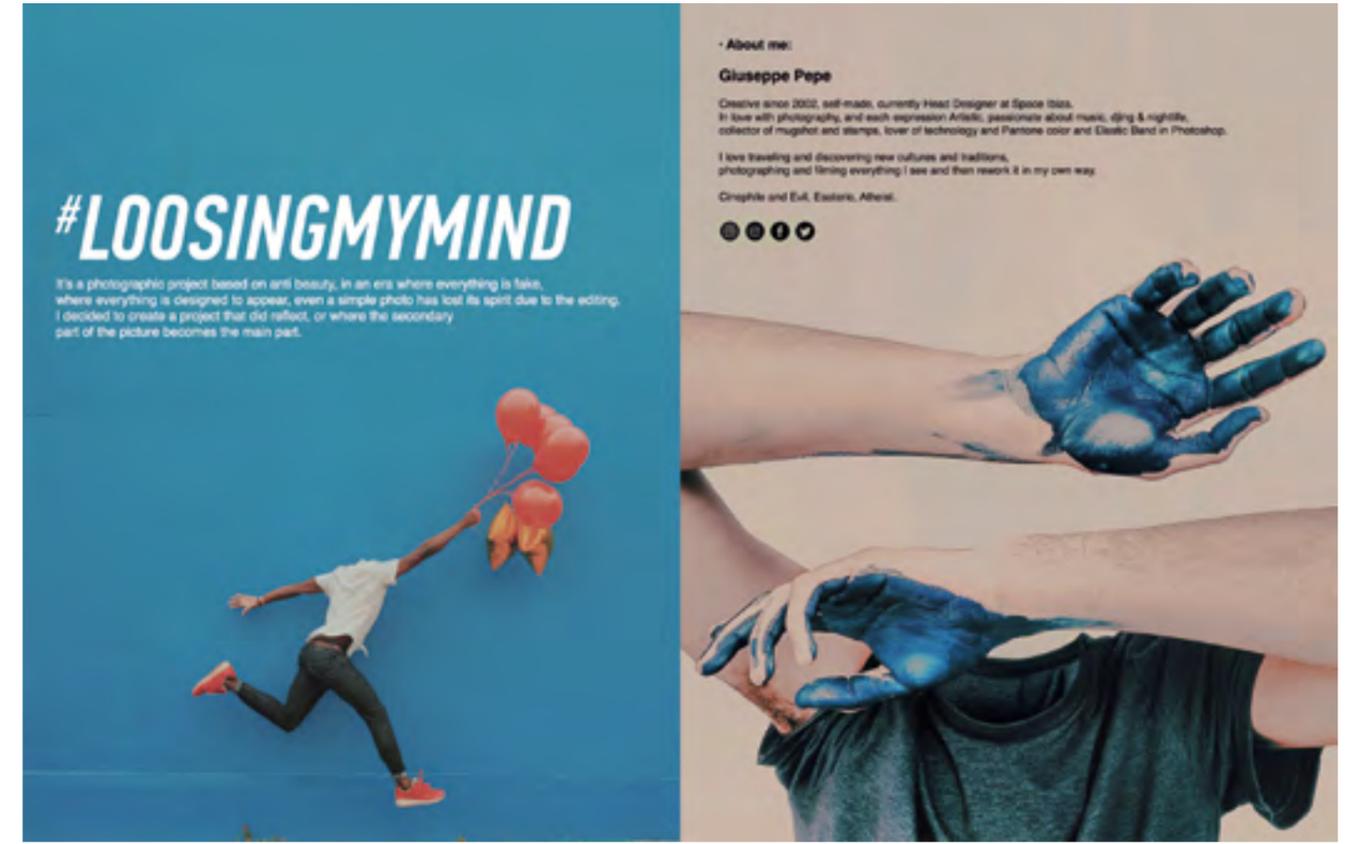

Annabelle Widmann, artistically known as ellebannA. Born on Ibiza yet studied costume design and construction for theatre in the UK. With an intense love for fantasy and passion for both costume & performance, the combination led her to creating her own world of Costume Performances. Her shows are designed to transport her audience into a world of fantasy. Taking people out of their mundane everyday life into a colourful place where magic happens. QUANTUM is ellebannA's most recent Costume Performance. A visual journey of the word. A sculpture that moves and takes you into a hypnotic state as an optical illusion unfolds in front of your eyes.

Like a cluster of atomic molecules in motion, by interacting with one another we are bonding lives together. Awakening the pure fact that We are One, We are Connected. "Quantum is exactly that what we don't see, it

is that mystery that lies between you and me. It is that interconnecting partial that fills this space, us all becoming unity."

IN OUR BODY ALL THE TRUTH IDOL INNER DANCE OF LOVE

Our bodies, our temples, the image of what we are in this life time, they are not as they are for a strange case, we choose them exactly as they are to be useful at the life experience we want to live and they were shaped in our life experiences since our childhood. In these bodies there is the potential of being all we want to be but to take it out we have to liberate ourselves from all patterns and look with no judgement the truth that we have recorded on us in our movements. The best tool is music to let these bodies move in these patterns which are the only ones they know and let them tell us with their movements what they lived, traumas and

blockages that get recorded there and repeat every day. I am Giulia, professional dancer and therapist and I create a new way to liberate a person from limiting patterns based on my therapeutic research and knowledge of body movements, IDOL, Inner Dance Of Love. It is an individual therapy to liberate limiting patterns that can block a person's evolution and causes illnesses and emotional problems or problems in relationships through body movements and coaching. The therapy is divided in 2 parts in the first part I make the person connect with herself and start moving with my energetic support and guide. The second part is the coaching, the person shares with me what she experienced and I say what body movements she made and I guide her to arrive by herself to what is the pattern which is limiting her nowadays.

ANTONIO D'AMICO

I was born in a beautiful city in the south of Italy: Gallipoli. I suffered since the age of 8, starting from the school period until my time in Milan: I moved there to refine my passion for dance. I soon realized that Paris is the perfect city to dance and for that reason I moved there when I was 19, and I live there since then. Paris is like my "adopted mother" especially for the many opportunities it offered to me. When I was there I decided to be a personal trainer, dance, fitness and pilates teacher. I discovered Ibiza 10 years ago. During the first period there, my partner was a pornstar. I was very jealous of him, so one day I decided to try to act in a porn movie with my partner. After that experience I finally realized that acting in porn movies is just a job. When I arrived in Ibiza the art director of Troia invited me and my partner to perform every Wednesday doing a live porn

show. Bob Sinclair contacted me and proposed me to take part in his party show at Pacha every Saturday. That was a magnificent artistic connection that made me look at Ibiza from another beautiful perspective. I always keep a good memory of this magical island. Every year I come back to find the energy of Ibiza, which makes me breathe an air full of freedom.

MADE IN ITALY

Fundadores de la promotora Made in Italy, Rossano Lucidi y Alessandro Gaeta llegaron a Ibiza en 1995 para entrar por la puerta grande del ocio nocturno de la isla con una primera residencia en Pacha. Tras el club de las cerezas, crearon la legendaria y exitosa fiesta Made in Italy en Amnesia, cuyos espectaculares montajes e increíble ambiente marcaron la noche de Ibiza. En 2010 los promotores regresan a Pacha para coproducir junto a Piti Urgell una fiesta que es un icono de Ibiza, Flower Power, mientras organizan exitosas fiestas en las principales ciudades italianas y en destinos musicales internacionales como Londres y Miami. Su relación con la isla fue un amor a primera vista que sigue regalando cada verano experiencias emocionantes en los mejores

clubs y locales de la isla y su actitud visionaria inyecta una dosis de energía única a la industria del entertainment con proyectos creativos relacionados con las áreas de la producción artística y la comunicación de marca.

SIMONE MONGUZZI

One of the most successful fashion icons of the fashion week in the world is certainly Simone Monguzzi. Graduated at the "Istituto Marangoni" in Milan in fashion styling, has become one of the most important editor contributors of very famous magazines and influencing figure nowadays. Talking to him while touring the fashion streets in Milan, I managed to snatch a short interview to know more about him: *Who is Simone Monguzzi? Tell me about you...* I graduated at "Istituto Marangoni" in Milan, but I started working with the Italian independent magazine Hunter since my first year of it. Few months after my degree I started my internship at Flair magazine and since then I never stop working! *What do you think of the digital revolution?* The digital revolution was in the air and Italy isn't one of the first countries that embrace this new way of communication. In my opinion there is no revolution, it's a natural evolution; I never stop buying magazines and I'll never do, I think that internet, Instagram and Tumblr create a new way world, more democratic, where everybody can discover new things.

What is the influencer figure for you? What will there be following this figure? In the 00's people used to identify themselves with celebrities like Paris Hilton and Nicole Richie, now there's Instagram and that is the natural evolution of that decade. In the 30s there was the "Old Hollywood" movie stars, the 80s was all about pop culture I mean every decade has its own way of communication... This is hours, for the future honestly I don't know what will happen, but for sure influencers will be the starting point of this. *As a social, well known by street style photographers, as your name has become famous thanks to the social, what do you think of the social within the fashion world?* I found so many interesting designers and artists on social media so I can't say anything bad about it! I love Tumblr and I use it a lot for research. On Instagram I discovered Benjamin Seidler (@benjaminseidler) I texted him and he made 5 one of a kind collage for L'Uomo Vogue. *What do you think of the brands that have decided not to be present to the fashion week show their collections online?* I think it's just a matter of money... Fashion is also about the emotion that a show can give! You don't go to a défilé just to watch the clothes, there's the atmosphere, the music... it's an experience to live! *What is your idea of unisex or no*

gender collections? I'm quite bored of this no gender style, there's no innovation it's just a trend that I hope will die very soon. *Which are the emerging brands to keep an eye on?* I love Sunnei, it's an Italian duo and their last collection was amazing! Than Martine Rose, I'm obsessed with their extralarge jeans, last one J. W. Anderson and Loewe. Thank you Simone, see you soon!

THE MUSIC OF THE FUTURE

It's all about the feelings. As a new area dj/producer/artist (call me as you want), I will shortly explain what I think about the music of the future... In my opinion, music has always played a very important role in our lives. As I said above, it's all about the feelings or, scientifically speaking, about "vibrations"...and right in this magic island called "Ibiza", we can find some of the best and most positive vibrations of the planet, and probably of the entire solar system. Actually, it's very difficult to define the music of the future as it depends on many factors, such as what is in your mind in a particular moment of your life. I've been thinking out, when I was younger that music can be compared to Maths,

and every number corresponds to a particular musical note, combining numbers you can create an harmony that can capture you, make you cry or make you feel in love! Later in the years after your soul and your mind will forget that combination, and someone else will make you listen back to that , you're going to have

exactly the same strong feeling, like when you're looking back to a old picture after years. The music is ciclic like a sort of trend but, to be honest, I don't like too much this word. Music is a strong drug, and you're making the future, your feelings. Yes, you are right... you are the music of the future! Greeko.

Born out of pure love for Ibiza, its lush nature and cosmopolitan atmosphere, a new gin called LAW has just begun to conquer the world.

With roots firmly grounded within the island's rich red soil, the secret of LAW's London dry recipe is that the majority of its ingredients are of 100% Ibizan origin. Yet, the use of fruity prickly pears is somewhat unique, as well as the combination of both the Common and Phoenician junipers. The latter grows everywhere on the Balearic Islands and is indispensable to create a true Ibiza gin. The fresh peel of handpicked lemon and orange, in addition with Spanish cucumber and Padrón peppers, add to the exceptionalities of this truly innovative spirit. Not forgetting the salt of course, straight from the famous salt flats of Salinas, ensuring that each bottle contains a pinch of genuine sea breeze.

Perfecting the formula and setting up their little distillery, it took some years before the three island residents, founders Luna,

Alexander and Wolfgang (LAW), could realise their dream of producing an exquisite Ibiza gin. LAW is handcrafted in a traditional copper still in so called "small batches" of only a few hundred bottles per distillation - and still every single one appears like a little wonder to its creators.

Duly outstanding though, has the aroma and quality of LAW convinced connoisseurs of high-class spirits worldwide to honour the brand with 8 awards in a range of international competitions - notably the New York International Spirit Jury, earning the prize "best gin distillery of Spain 2016".

However, it was another quite different situation that told the three makers of LAW that their mission of creating an authentic island ambassador had been fulfilled.

An elderly Ibizan gentleman, smelling the scent of LAW Gin for the very first time one afternoon, whispered: "This reminds me of the campo in spring time!" They smiled, this being the true measure of a fantastic Ibiza success story...

PAOLA CUERVO

Nacida en Gijón, bailarina profesional, director artístico y propietaria de Gorgeous, empezó su aventura con tan solo 17 años. Empezó en Madrid - época de La Movida - trasladándose después a Roma - donde vivió 15 años - antes de aterrizar finalmente en Ibiza en el año 2000. Aquí reside actualmente y sigue trabajando con la producción de fiestas y eventos con su marca Gorgeous. Viajar es una de sus pasiones “ los momentos más felices de mi vida “ - afirma. Un paso por todos los continentes, en ciudades y/o países como New York, L.A, Miami, Panamá, Costa Rica, Brasil, Indonesia, Malasia, Bangladesh, Tailandia, Australia, Maldivas, Tokio , entre muchos de los que recuerda experiencias únicas y inolvidables. “allá donde fueres haz lo que vieres “ - dicho Asturiano que escenifica ahí donde va. Ama su vida, su trabajo y sobre todo IBIZA. “Uno de los mejores sitios para vivir del mundo!” “ Los habitantes de Ibiza somos como una gran familia, pues todos tenemos algo en común: No nacimos aquí, no estábamos a gusto donde vivíamos, y todos escogimos

este magnífico lugar. Somos gente a la que le gusta divertirse y no aceptamos reglas, vivimos con muy pocas reglas, y yo considero esto un “lujazo”. Quizás esta sea la verdadera Magia de Ibiza”. Me encanta mi trabajo, siempre he trabajado haciendo divertirse al público. Primero bailando y cantando, después como director artístico y director de discoteca. Ahora, haciendo fiestas y creando eventos entre Italia e Ibiza. Mi marca Gorgeous evoluciona, y no solo hace fiestas en big discoteque, si no también intervenciones empresariales, fiestas privadas, fiestas on tour. En este periodo de mi vida estoy en modo “yes too all” o sea todo sí! Y, que me quiten lo bailao!! - Paola Cuervo.

MILANO IBIZA ONE WAY

Ibiza is an incredible place, an island where there's something for everyone. The staff of El Puerto Ibiza organises Milano Ibiza One Way, a series of events to reinforce the affinity between the two symbolic cities. Milan, one of the world's top fashion capitals, is a temple to elegance and shopping. Ibiza, with its blue sea and gold sand beaches, is the perfect location for events like this. Magic is found in different areas of the harbour, a place which has always been a crossroads of cultures and people.

A mood rich with positive energy represents the historic soul of the island as well as its alternative way of producing happenings which draw upon the pure intersection of ideas. The port zone safeguards the original essence of Ibiza. Declared a world heritage site by UNESCO, the captivating harbour is where it all began. This spirit then takes on additional values: Milan will influence Ibiza and Ibiza will invade Milan. The union of the coolest island in Europe and the world's fashion capital is

entirely natural. Milano Ibiza One Way offers fashionable pre-evening happenings, created to let guests experience the party attitude of this magical island. And of course, all this to the sound of the most on-trend music of the moment.

Ibiza es un lugar maravilloso: la isla donde cada uno de nosotros puede encontrar su propia dimensión. El personal de El Puerto Ibiza organiza Milano Ibiza One Way: una serie de eventos para fortalecer la asociación entre dos ciudades icónicas. Milán, una de las capitales más famosas en el mundo de la moda,

es el templo de la elegancia y del shopping. Ibiza, con su mar azul y sus playas de arena dorada, es el lugar ideal para eventos de este tipo. Una magia encerrada en los espacios del puerto, el cual ha sido desde siempre una encrucijada de culturas y personas. Una atmósfera llena de energía positiva que representa el espíritu más histórico de la isla, así como una forma alternativa de llevar a cabo un happening producto de la mezcla pura de ideas. La zona del puerto guarda la esencia de Ibiza. Declarado Patrimonio de la Humanidad por la UNESCO, el puerto es un lugar fascinante en el cual todo nace. Un espíritu lleno de valores: Milán contagiará Ibiza e Ibiza invadirá Milán. Así pues, la combinación de la isla más cool de Europa y la capital de la moda es natural y despreocupada. Milano Ibiza One Way propone varios happening temprano por la noche con toque fashion, realizados para vivir la party attitude en el mundo mágico de la isla. Todo ello acompañado por la música más popular del momento.

IRREV ERENT S O F A

The Irreverent Sofa is an event within the port requalification project. A space in a strategic area in the very heart of the island's bustling shopping and nightlife district will become the perfect location for "irreverent" interviews with various people from Ibiza's social scene, such as VIPs, influencers, web stars and DJs, from the worlds of design, fashion, music, food and lifestyle. Interviews will be set up so that two people from the same industry, but with diametrically opposed tastes and opinions, will meet. The ensuing debate will be guided by ad hoc questions, leaving interviewees the chance to disagree and contradict each other. Each meeting will cover a topic or theme and will be streamed live by online radio and TV broadcasters, providing comprehensive visibility for the brands and guests. In addition, connected users can "cheer" for each of the guests through live reactions and comments on the project's social media channels. Learn more at www.elpuertoibiza.com.

The Irreverent Sofa es un evento que forma parte del proyecto de recalificación del puerto. Un espacio ubicado en una zona estratégica, en pleno corazón del shopping y de la vida

nocturna de la isla, se convertirá en el lugar ideal para una entrevista "irreverente" a varios personajes de la 'movida' ibicenca, tales como celebridades, personas influyentes, estrellas de la web y DJ, pertenecientes a las áreas del diseño, la moda, la música, la comida y el estilo de vida. Las entrevistas estarán organizadas de la siguiente manera: se confrontarán dos personajes del mismo ámbito, pero con gustos o mentalidades opuestos. El debate estará estimulado por preguntas ad hoc, dejando la posibilidad para que los entrevistados se refuten mutuamente. Cada cita abordará un argumento por tema y será transmitida en vivo por canales (web) de radio y televisión, radio web y televisión web, ofreciendo una visibilidad de 360 grados de la marcas y los invitados. Además, los usuarios conectados podrán animar a uno u otro personaje a través de las reacciones en vivo y los comentarios en las redes sociales de la iniciativa. HA LLEGADO SUNRISE FIT!

Prepárate para transformar tu cuerpo y tu vida y también para refrescar tu mente y tu alma!

Únete a Sunrise Fit y benefícate de la experiencia de nuestros profesores cualificados con sus lecciones privadas, semiprivadas y en grupos. Con nosotros encontrarás el entrenamiento perfecto para tu nivel: uniéndote a nuestras clases aprenderás a mejorar tu flexibilidad mientras fortaleces tu abdomen, columna vertebral, brazos y piernas. Te ayudaremos a mejorar tu postura, equilibrio y agilidad mientras corriges desequilibrios y debilidades que afectan a tu cuerpo. Todas nuestras clases mantienen un número reducido de personas para dar a cada uno de nuestros alumnos nuestra mejor atención y un programa personalizado. En SunriseFit, además de las clases tradicionales de YOGA y PILATES, encontrarás una primicia en la isla: ANTIGRAVITY® FITNESS.

Somos el único y primer centro cualificado en la isla que ofrece este innovador método de entreno FUNCIONAL. Cuanto más aprendas a mantenerte por ti mismo en forma con nuestras

enseñanzas, más serás capaz de percibir sensaciones como AMOR, CONEXIÓN, PERTENENCIA y experimentar el fluir de la BUENA ENERGÍA restaurando tu cuerpo, tu mente y finalmente tu vida. Nuestra meta es hacerte sentir ALERTA, CONSCIENTE, CON ENERGÍA, REVITALIZADO y, no menos importante, FUERTE.

Creemos firmemente que una persona independientemente de su edad o estructura física podrá beneficiarse positivamente uniéndose a nuestras sesiones de entrenamiento. Somos profesores certificados en: Antigravity® Yoga, Pilates y Yoga.
